Summary

Entry-level Java Full Stack Developer skilled in Java, Spring Boot, React.js, and Oracle. Experienced in building scalable web applications, REST APIs, and responsive user interfaces. Strong problem-solving ability with a focus on writing clean, efficient, and maintainable code.

Education

B.Tech - Computer Science Engineering • CGPA: 8.49

04/2025

Intermediate (MPC) • CGPA: 9.42

SSC • CGPA: 9.2

Skills

HTML, CSS, React.js, Spring Boot, Oracle, REST APIs, OOP, JavaScript , Java, Git , GitHub, Microservices

Projects

Cyber Crime Detection using Machine Learning

- Developed ML model to classify cybercrime activities
- Performed data preprocessing and cleaning
- Applied classification algorithms and evaluated performance
- Improved prediction accuracy through optimization

Employee Records Management System

<https://github.com/SandhyaKolakani/EmployeeManagement>

- Built RESTful application using Spring Boot with CRUD operations
- Designed structured API endpoints
- Improved backend modularity and data handling efficiency

Flavor Craft [E-Commerce Web Application]

<https://flavour-craft.vercel.app/>

- Flavor Craft is a responsive food recipe web application that helps users explore and discover a variety of recipes easily.
- It provides categorized recipes with detailed ingredients and step-by-step cooking instructions.
- The platform is designed with a clean and user-friendly interface for smooth navigation across devices.
- It enhances the cooking experience by making recipes simple, accessible, and well organized.

Hobbies

- Team collaboration activities
- Building small web applications
- Improving communication skills
